HOLD HARMLESS AGREEMENT SERVICE TURN ON WAIVER

Two forms of identification are required; at least one must be a photo I.D.

I, the undersigned, acknowledge that City of Yukon personnel have informed me of the City of Yukon's policy regarding the establishment of water service. Specifically, that I am required to be present at the residence or business when the water meter is turned on. I understand the intent of the policy is to protect the residence or business from potential flooding or water damage that may occur if water is turned on at the meter while unoccupied.

By signing this agreement, I hereby give authorization to the City of Yukon and its employees to access my water meter for the purpose of establishing water service while I am not present on the premises. I understand the water meter will be turned on and City of Yukon personnel will have no knowledge of plumbing fixtures, pipes or fittings that may be already turned on, leaking or in general disrepair. I agree to hold harmless the City of Yukon and its employees for any potential damage to the premises.
