Subject: City Council Update

We really don't have much business to take care of next Tuesday. We have two action items for your consideration under the City Council agenda. The first is to consider approving Resolution 2014-02 authorizing a grant application to ACOG for the conversion of three pickups and a dump truck to CNG. The operating report from Public Works is that fuel costs have been reduced marginally, vehicle performance is very good while the savings to the environment has improved greatly.

The second action item is to authorize the City Engineer to advertise for bids for the Waste Water Treatment Plant rehabilitation. This was a budgeted item under Series B of the 2012 Revenue Bond Issue. We anticipate the project costing \$1,000,000.

I have been typing for the last several days a three year progress report. The report is intended to highlight progress over and above what we do normally day-to-day. My report Tuesday will highlight the highlights. It currently six pages and will end up at eight or nine. None of it could have been done without the support and approval of Council. Thank you.

A handwritten signature in blue ink that reads "Grayson Bottom". The signature is written in a cursive, flowing style.
