Subject: City Council Update

We have four action items for your consideration at next Tuesday's meeting. The first two items are your consideration of the platting of a parcel of land located along Vandament west of Garth Brooks. The land is being developed under the name Red Rock Commercial Center Section II. A Dialysis Center is the proposed use of the site. These items come to you with a do-pass recommendation from the Planning Commission. The minutes need to reflect that Councilwoman Yanda has exited the room before the items are taken under consideration and not be present for the votes.

The final two action items relate to the submission of two grant applications that were reviewed at our last meeting. The first of the application is the application to ACOG for participation in the Oklahoma City Urbanized Area Transportation Alternatives Program Funds. The purpose of the Grant funding, should we be successful, would be for the construction of interconnecting trails as designed by our Master Trails Plan. This grant has a maximum grant amount of \$500,000 with a 20% match requirement, \$100,000 match. You will also remember that the Master Trails Plan was developed through a grant from the U.S. Department of Interior, U.S. Forestry Department.

The second grant application is more of technical assistance grant related to first steps in our Main Street Revitalization Process. This is a 50/50 grant with a maximum of \$7,000. They value their technical assistance at \$35,000.

That is all the business we have this time. Draft departmental budgets are due by the end of today. We are planning the Council Orientation in advance of the first budget hearings so we can have an opportunity to discuss the organization of the budget and make it easier to be able to contribute to those hearings. Thank you for your time.
