Subject: City Council Update

We have three action items all under the City Council agenda for tomorrow night. The first action item is your consideration of an expenditure of funds in the amount of \$40,135.00 for the purchase of VHF mobile radios for the Fire Trucks to be reimbursed 100% by a Oklahoma Homeland Security Reimbursement Grant. These new radios will provide redundancy in our communication systems should our high band system be compromised in some way.

The second action item for passage of Ordinance No. 1321 that will allow us to collect a fee to defray the costs of collecting delinquent fines, court costs, and mandatory State fees pursuant to Oklahoma Statute and approving an emergency clause.

The third and final action item is to accept the 2014 Wastewater Treatment Plant Rehabilitation and Improvements project and placing the maintenance bond into effect as recommended by the City Engineer.

There is an executive session for the purpose of discussing the employment of the City Manager as called for in our employment agreement of last January.

Stop the presses! Doug just informed me that he is posting a revised agenda that includes another action item related to approving our latest CDBG grant application. While it is too late to meet the advertisement of a public hearing for this meeting, we can still meet that advertisement and meeting requirement in time to be able to submit the application to the Oklahoma Department of Commerce by the deadline.
