Subject: City Council Update

While our focus Tuesday night is on installing our new members and finalizing the Council organization, we do need to take care of some business. The first action item for your consideration is under the YMA for the replacement of the pump and motor for Water Well #2. The funding for this line item is contained in the line item of "Maintenance and Repair" of the Water and Sewer Enterprise Fund. We need to get this done before summer weather gets here.

The first action item for the City Council is the appointment of our representatives a Member and Alternate for the Board of Directors and all of the Committees of the Association of Central Oklahoma Governments (ACOG). Bob was previously our member and John is the alternate.

The second and third action items are authorize the City Engineer to advertise and receive bids for the CDBG years 10 and 11 roadway, waterline, and Sanitary Sewer Replacement project. This a continuation of what is an on-going project primarily on Cedar and cross streets. This is the only area in Yukon that qualifies for CDBG funding.

This is a pretty short meeting in anticipation of two evenings of budget workshops to be held in conjunction with our second meeting of May.
