

City of Yukon

Operation, Maintenance and Management
of the Water & Wastewater Treatment Facilities

Document Packet

City of Yukon

Document Packet Information

This is the document packet that is referenced in the RFP. All pricing listed is for budgeting purposes ONLY. The equipment listed in the Repair and Capital Improvements section is specified by the City, to be utilized for pricing.

The information listed in the DEQ Permit section should be utilized to determine sampling requirements and cost associated lab testing.

Please use the information listed in the Process Operations Information section to determine past history of plant operations. This should give you the information needed to propose operations, chemicals, and electrical cost.

Any questions about this Document Packet shall be directed to:
